

# Information ShadyAddons Collects

Metric	Purpose
Minecraft UUID	Analytics, preventing duplicate information
ShadyAddons version	Analytics, so we can gauge the adoption rate of new versions
Approximate location (anonymized to within a tenth of a coordinate of your ISP's location)	Fun, This is used for interactive maps on the <a href="#">ShadyAddons website</a> . <b>It is not meant to be accurate to you as much as to be accurate to a place where humans live.</b> It is derived from your IP address when you first use the mod, and never checked again. Your IP address is seen only by the program and is never stored.
ISO two-letter country code	Fun, used for country rankings in the <a href="#">2021 in Review</a> site. It is derived at the same time as your approximate location and never updated.
Hypixel SkyBlock playtime	Fun, used in the <a href="#">2021 in Review</a> site.
Telemetry and usage statistics	Analytics and fun, this includes your usage of certain features. It does not include information about the text you enter into the command palette.
First login date	Analytics, so we can track user growth over time
Last updated date	Analytics, so we can determine what percentage of users are current
Mod hash	An SHA-256 hash of the ShadyAddons JAR file. This helps us detect and protect people running malicious versions. Only download Shady from its <a href="#">official website</a> and check your hash against <a href="#">this list</a> .
